

BBC - Banner Battery Controller

Practical accessories for the Accucharger

The LED indicates the condition of the battery.
Easy to see by flashing LED (GREEN / YELLOW / RED).
For permanent installation at the battery. Direct charging via charging plug at the BBC (no clamps required).
Easiest installation incl. mounting material.
Ideal application for cars (12V) and trucks (24V).

PERFORMANCE

- Handling:** immediate information about the state of charge of the battery via special RGB LED
- Design:** robust, high-quality plastic finish, incl. fuse, splash-proof
- Charging:** direct charging with Banner Accucharger, no clamps are necessary
- Mounting:** can be connected via eyelets directly to the battery
- Contents:** BBC, fuse, mounting material, manual

APPLICATION

Home / Car / Truck
Fits for all Banner Accucharger (2A, 3A, 6A, 10A)
